Sustainability Scorecard for New Homes

(17)

Please consider the 14 sustainability aims below and then use the scoring system (with a range from 1-5: see red text below) to show what you think about the 'sustainability' of the two different proposals for 30 new homes in the parish. There are two columns for the purpose of scoring: **A** is for the current proposal (i.e. 24 homes at Cookhams, Top Road & 6 homes which have planning permission); and **B** is for the alternative proposal (i.e. medium sized sites as presented, with remainder spread around the parish).

The 14 Aims of Sustainability	Score (1-5) LARGE / SMALL	
	A – WHP 13 -24 homes at Cookhams Site etc	B – smaller sites and a medium site, spread around the Parish
1. Does the new homes proposal have **genuine local support**?	1	3
2. Will the new homes proposal **improve where we live**?	2	3
3. Will the new homes proposal **support sustainable economic development** – i.e. deliver homes and places for people to work?	5	5
4. Will the new home **provide** pleasant places to live?	Design Guidance —	
5. Does the new homes proposal **respect the different character of the different parts of our parish – keeping our villages and community alive and protecting the beauty of our countryside**?	2	3
6. Will the new homes proposal be built to **high standards of design, construction; encourage the reuse of existing resources** (e.g. **converting existing buildings**); and encourage the **use of renewable resources**?	3	3
7. Will the new homes proposal **improve the natural environment** (e.g. trees, landscape, and biodiversity - wild bird and animals etc.) and **reduce pollution** (e.g. from traffic and noise)?	1	3
8. Will the **new homes proposal be sited on land that has been previously developed (brownfield land)**?	1	3
9. Will the new homes proposal **promote mixed use development** – (residential as well as commercial / local employment)?	1	1
10. Will the new homes proposal **conserve the Parish's heritage assets** (e.g. old and historic buildings)?	–	–
11. Will the new homes proposal **support the efficient, quick and co-ordinated use of public transport** service, walking & cycling?	1	3
12. Will the new homes proposal **promote better health, social and cultural wellbeing**?	1	3
13. Will the new homes proposal **substantially reduce the impact on residents' lives of the volume, speed and weight of traffic** especially on the C319 Sharpthorne Road – The Hollow – Selsfield Road)	1	3
14. Will the new homes proposal ensure a **supply of homes which are suitable for younger people and older people**?	–	–

Scoring System:

1. Yes, the new homes proposal will completely achieve this aim
2. Yes, the new homes proposal will go some way towards achieving this aim
3. The new homes proposal will make no difference at all to achieving this aim
4. No, the new homes proposal is contrary to achieving this aim
5. No, the new homes proposal is completely contrary to achieving this aim

2. Will the new homes proposal **improve where we live**?		4
3. Will the new homes proposal **support sustainable economic development** – i.e. deliver homes and places for people to work?		3
4. Will the new home **provide** pleasant places to live?		4
5. Does the new homes proposal **respect the different character of the different parts of our parish – keeping our villages and community alive and protecting the beauty of our countryside**?		3
6. Will the new homes proposal be built to **high standards of design, construction; encourage the reuse of existing resources** (e.g. **converting existing buildings**); and encourage the **use of renewable resources**?		3
7. Will the new homes proposal **improve the natural environment** (e.g. trees, landscape, and biodiversity - wild bird and animals etc.) and **reduce pollution** (e.g. from traffic and noise)?		3
8. Will the **new homes proposal be sited on land that has been previously developed (brownfield land)**?		3
9. Will the new homes proposal **promote mixed use development** – (residential as well as commercial / local employment)?		3
10. Will the new homes proposal **conserve the Parish's heritage assets** (e.g. old and historic buildings)?		3
11. Will the new homes proposal **support the efficient, quick and co-ordinated use of public transport** service, walking & cycling?		2
12. Will the new homes proposal **promote better health, social and cultural wellbeing**?		4
13. Will the new homes proposal **substantially reduce the impact on residents' lives of the volume, speed and weight of traffic** especially on the C319 Sharpthorne Road – The Hollow – Selsfield Road)		2
14. Will the new homes proposal ensure a **supply of homes which are suitable for younger people and older people**?		3

Scoring System:

1. Yes, the new homes proposal will completely achieve this aim
2. Yes, the new homes proposal will go some way towards achieving this aim
3. The new homes proposal will make no difference at all to achieving this aim
4. No, the new homes proposal is contrary to achieving this aim
5. No, the new homes proposal is completely contrary to achieving this aim

Sustainability Scorecard for New Homes

(7)

Please consider the 14 sustainability aims below and then use the scoring system (with a range from 1-5: see red text below) to show what you think about the 'sustainability' of the two different proposals for 30 new homes in the parish. There are two columns for the purpose of scoring: **A** is for the current proposal (i.e. 24 homes at Cookhams, Top Road & 6 homes which have planning permission); and **B** is for the alternative proposal (i.e. medium sized sites as presented, with remainder spread around the parish).

The 14 Aims of Sustainability	Score (1-5)	
	A – WHP 13 -24 homes at Cookhams Site etc	B – smaller sites and a medium site, spread around the Parish
1. Does the new homes proposal have **genuine local support**?	1	
2. Will the new homes proposal **improve where we live**?		
3. Will the new homes proposal **support sustainable economic development** – i.e. deliver homes and places for people to work?		
4. Will the new home **provide** pleasant places to live?		
5. Does the new homes proposal **respect the different character of the different parts of our parish – keeping our villages and community alive and protecting the beauty of our countryside**?		
6. Will the new homes proposal be built to **high standards of design, construction; encourage the reuse of existing resources** (e.g. **converting existing buildings**); and encourage the **use of renewable resources**?		3
7. Will the new homes proposal **improve the natural environment** (e.g. trees, landscape, and biodiversity - wild bird and animals etc.) and **reduce pollution** (e.g. from traffic and noise)?		3
8. Will the **new homes proposal be sited on land that has been previously developed (brownfield land)**?		
9. Will the new homes proposal **promote mixed use development** – (residential as well as commercial / local employment)?		5
10. Will the new homes proposal **conserve the Parish's heritage assets** (e.g. old and historic buildings)?		
11. Will the new homes proposal **support the efficient, quick and co-ordinated use of public transport** service, walking & cycling?
