

WHCS_04 Webbs Mead (including Bakers Pit)

Panoramic View

As not everyone will be able to visit Webbs Mead the link below gives some impression of the field and its surroundings.

The panoramic picture was taken on Wednesday May 7th from approximately the centre of the Webbs Mead field part of the proposed site.

Click on the link below to open the picture in your browser and then you will be able to drag the picture with your mouse by holding down the left button with the cursor somewhere on the picture. The picture will start fuzzy but will clear given time to download the detail. There is a compass on the screen so you can tell which way you are looking - and the radio mast makes a pretty good reference point as you spin round! Best viewed full-screen (maximised).
